Get a chance for cultural exchange with Japanese kids

Get a chance to convey your language and culture

# Intention of this Summer Camp

This camping experience brings young people into contact with nature, challenging spirit, community life, and cultural exchange, and provides a chance to make many different friends. Our international students share their experience and purpose and give kids a wider perspective of the world. It is a special opportunity to broaden everyone's horizons.

### **Activity**

During summer vacation, we hold a series of 2-day and 3-day camp courses for kids, looking for 40-60 participants each time. You will be part of a team, leading a group of kids (ages 6 to 15) in daytime activities on the beach, river, forest and nighttime camping. and taking a trip to visit a hot spring resort. Our Morinokuni staff and volunteer camping leaders will help support you and the campers. This is a cross-cultural program, so we are looking for international staff members to share their cultures by cooking foreign meals, teaching foreign dances, telling stories by the campfire, and showing us children's games from your country, etc. Let's have an adventure!
