

IMPORTANT NOTICE

1. INFECTION PREVENTION

- ① **Monitor your physical condition**, including body temperature, for **2 weeks** prior to the date of your medical checkup (health observation period).
- ② Be sure to **fill out the Health Observation Record**, otherwise you CANNOT take examination.
- ③ Those who have **fever** and/or **other health problems** on the day of medical checkup or during the health observation period CANNOT take examination.
- ④ If you have infected with **an infectious disease (COVID-19, flu, etc.)**, and are **still under medical treatment period** CANNOT take examination.
- ⑤ Those who have been requested by the Public Health Center to undergo health monitoring or refrain from going out as a person who has been in close contact with a patient with COVID-19 CANNOT take examination.
- ⑥ If any of the above ③, ④ or ⑤ applies to you, please contact with Health Science Center in advance.
- ⑦ Be sure to **wear a mask**.

2. Chest X-Ray

- ① Wear thin fabric shirt with no buttons, prints, or glitters.
- ② Bring **something to wear** such as a jacket and a cardigan to protect you from the cold when you get to the X-ray bus.
- ③ Do not wear necklaces or bras during the X-Ray examination.
- ④ Make sure that your hair is not falling over your shoulders.

3. Urinalysis

- ① You cannot submit only your urine sample without taking examination.
- ② **【For ladies】** Notify at the reception desk if you are on a period. The Health Science Center will inform you of the sample submission date later.
