

Calling all international students: Let's go walking together!!

The World Trails Conference (WTC) is an international symposium which focuses on the health benefits and regional development benefits of walking. It will be holding a large walking event - the "World Walking Festival in Tottori" on Saturday 15 and Sunday 16 October this year. This will be the first time they have held their walking conference in Japan. There are a number of different courses you can choose from, each with different themes, such as nature (lakes, forests, oceans, mountains), history, manga, hot springs and townscape.
